

Sliding S1.1-2P.2W

SUPERIOR-KIT 1 - 1 & 2 PANELS - 2 WAYS

Sliding S2.1-2P.2W

SUPERIOR-KIT 2 - 1 & 2 PANELS - 2 WAYS

Next generation systems for
sliding doors activation and safety

sensing the future

Enhance your sliding doors

- **Meets or exceeds the new ANSI 156.10-2005 standards** as independently tested by TÜV [USA]
- **Sliding S1.1-2P.2W** is the ideal system for sliding doors in high-risk applications, with only two sensors to install
- **Sliding S2.1-2P.2W** is a complete retrofit system for sliding doors in high-risk applications
- **Higher safety** - with advanced SMD: Slow Motion Detection
- **Accelerated installation** and set-up with RC Duo, our exclusive bidirectional remote control
- **Higher reliability** - Swiss engineered
- **Unmatched aesthetics** - Both sensors, Profusion and Safescan, have identical looks which creates visual harmony when installed side-by-side

BIRCHER REGLOMAT
sensing the future

Discover the next generation systems for sliding doors activation and safety

Bircher Reglomat is proud to introduce 2 new systems for sliding doors activation and safety.

These systems are easier to install and set-up. They deliver higher performance. They are equipped with smart technology which enhances safety and improves overall door behavior. They also have the highest reliability thanks to our meticulous Swiss engineering.

1. Profusion is a combination of two sensors: microwave for motion detection and active infrared for safety
2. Safescan is an active infrared safety curtain for doorway or sidelite safety
3. RC Duo [optional] is a remote control used to perform quick and accurate set-up of the Profusion and Safescan, and other RC enabled Bircher Reglomat products

SLIDING SUPERIOR - KIT 1 - 1 & 2 PANELS - 2 WAYS

NEW DOORS

CONTENT: 2 PROFUSIONS

Sliding S2•1-2P•2W

SUPERIOR-KIT 2 - 1 & 2 PANELS - 2 WAYS

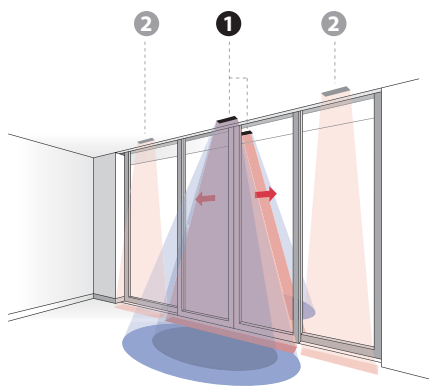

SLIDING SUPERIOR - KIT 2 - 1 & 2 PANELS - 2 WAYS

RETROFIT

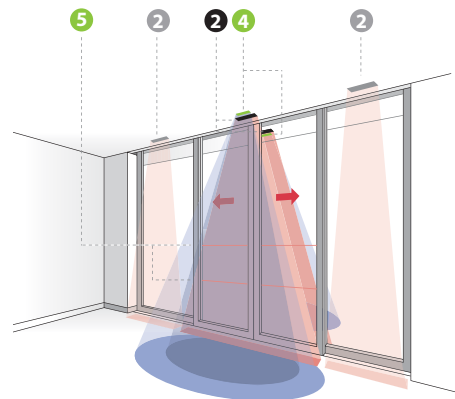

Upgrade existing doors to the ANSI 156.10-2005

CONTENT: 2 SAFESCANS

- 1 2 Profusions [1 on each side] for activation [blue areas] and safety [red areas in doorway]
- 2 Option: additional Safescans [light red areas on sidelite panels]

- 2 2 Safescans [1 on each side] for safety [red areas in doorway]
- 4 2 existing motion sensors [1 on each side] for activation [blue areas]
- 5 2 existing safety beams
- 2 Option: additional Safescans [light red areas on sidelite panels]

LEGEND

- Black: new product [part of the featured system]
- Grey: optional product [not part of the featured system]
- Green: existing product on the door [not part of the featured system]
